QVM Bulletin: Q-175

Date: November 01, 2008

Programmable Options For Daytime Running Lamps (DRL)

Models Affected: All F250-550 trucks; Model Year 2008 and later; and E-Series vans 2009 and later.

Action Requested: Please provide a copy of this bulletin to all Engineering, Manufacturing, Service, Parts, Sub-Contractors and Customers that are required to have the DRL system changed from the original factory settings to accommodate their customer requirements.

Recommendations: To activate/deactivate the DRL system, the SJB must be programmed at a Ford Dealer, or by using the equipment described below.

Special Tool(s)	
 ST2834-A	Vehicle Communication Module (VCM) and Integrated Diagnostic System (IDS) software with appropriate hardware, or equivalent scan tool
