SEIC Customer Access Circuit Label Information Correction

REVISION	UPDATE	REVISION DATE
	INITIAL RELEASE	

Model(s) Affected:

2021MY Medium Duty F-650 / F-750 Gas and Diesel

Issue / Description:

On current production vehicles the Customer Access Circuit Label on the under-hood wiring harness is indicates incorrect circuit information. Below is a cross-reference chart to aid with identifying correct wire circuit color for wiring the SEIC controls.

This will remain the alternative solution until the label correction change can be put into production on or about July 2020 (Estimated, subject to change without notice).

CROSS REFERENCE CHART

CIRCUIT	CURRENT LABEL (Incorrect)	NEW LABEL (Correct)
CE933 (Diesel)	BU-OG	BU-GN
CE326 (Diesel)	BU-WH	BU-GY
VMC05 (Diesel)	VT-OG	VT-WH
LE424 (GAS)	YE-WH	YE-GN

→ LABEL LOCATION

Refer to the Body Builder Layout Book for additional guidelines and recommendations. If you have any questions, please contact the [Ford Body Builders Advisory Service](http://www.FordBodyBuildersAdvisoryService.com) as shown in the header of this bulletin.
